A SERVICE BOOKLET GIVES YOU ADVANTAGE OF OUR EXPERIENCE

When we receive your order we will mail you our Booklet of "Suggestions for the Planting and care of Trees and Plants," the results of long years of experience in our Texas climate and with our Texas soil.

This pamphlet tells where to locate the orchard, how to prepare the ground to receive the trees, the best fertilizer to use, and how to prune the trees for planting. It also gives methods of cultivation for the orchard and care of Shade and Street trees. There are also suggestions which will help you to start in the right manner to have a fruitful orchard or beautiful flowers.

RETAIL PRICE LIST

The John S. Kerr Nursery Company

Sherman, Texas

OUR GUARANTEE—We use the most modern tools and methods in growing, digging and handling our Nursery stock so that when shipped it will be in best possible condition, but we do not guarantee stock to be kept in the same good condition, or to live, after delivery to the purchaser. However, we do replace at one-half price, as stated in our contract, all stock which fails to grow. The proper pruning, planting and care devolves entirely upon the Purchaser. We exercise the greatest care to keep all Nursery stock pure and True to Name and hold ourselves in readiness at all times to replace on proper proof all stock that may prove otherwise; or, to refund the amount paid for same, but it is mutually agreed between the Purchaser and our Company that we shall not, at any time, be liable for any amount greater than the original price.

This Price-List supercedes all former Price-Lists and applies to all Stock shown in catalogue. Prices subject to change without notice.

2-year-old plant, large50	5.00	40.00
2-year-old plant, medium40	4.00	30.00

Special new varieties are double the above prices.

OUR SERVICE

In our efforts to render a complete service to our customers we have arranged to furnish Spray Pumps at Manufacturers prices; write us direct, giving the size and style of Pump you want, or give the Number of Trees you have to spray, and we will help you select the right size, and will take pleasure in having the pump shipped direct from the Factory to you. All pumps are sold for cash, and prices will be quoted when we know the size and style you require.

We can also furnish Books on many Horticulture subjects at Publishers prices. Please write for Book pamphlet describing same, sent free.

SUGGESTIONS FOR A MODEL ORCHARD

The best plan for planting an acre 210x210 in a Home Orchard for this section is as follows:

- 12 Paper Shell Pecan 60 x 60 Feet
- 33 Early to Late Peach 20 x 20 Feet
- 10 Early to Late Pear 60 x 60 Feet
- 22 Early to Late Plum 20 x 20 Feet
- 22 Early to Late Plum-Cherry 20 x 20 Feet
- 6 Fig 20 x 20
- 12 Grape Vines, Assorted 20 x 20
- 50 Blackberries, Assorted 3 feet in row
- 50 Dewberries, Assorted 3 feet in row

This can be used as a unit and doubled as many times as required. Apples are not as successful as other fruits, but farmers living near the River and other favorable portions of this State can grow apples successfully. The same may be said of strawberries.

The above proposed planting is furnished by The John S. Kerr Nursery Company of Sherman, Texas. We will be glad to furnish the farmers with detailed information as to preparation of the soil, selection of orchard site, best varieties to plant and proper pruning and planting methods.

Our 55 years experience shows that most of the successful farmers have a good orchard and garden.

Draw plan on scale of 40 feet to one inch. Start with pecan tree on row one and continue to plant as follows:

- Row 1. First pecan, 2nd and 3rd peach, 4th pecan, 5 and 6 peach, 7 pecan, 8 and 9 peach, 10 pecan, 11 peach (4 pecan, 7 peach).
- Row 2. All peach 20 x 20. (11 trees).
- Row 3. 1 and 2 peach, 3 pear, 4 and 5 peach, 6 pear, 7 and 8 peach, 9 pear, 10 and 11 peach. (3 pear, 8 peach).
- Row 4. Same as row 1.
- Row 5. All plum 20 x 20. (11 trees).
- Row 6. 1 and 2 plum, 3 pear, 4 and 5 plum, 6 pear, 7 and 8 plum, 9 pear, 10 and 11 plum. (3 pear and 8 plum).
- Row 7. 1 pecan, 2 and 3 plum, 4 pecan, 5 plum, 6 plum-cherry, 7 pecan, 8 and 9 plum-cherry, 10 pecan, 11 plum-cherry (4 pecan, 3 plum, 4 plum-cherry).
- Row 8. All plum-cherry. (11 trees).
- Row 9. 1 and 2 plum-cherry, 3 pear, 4 and 5 plum-cherry, 6 pear, 7 and 8 plum-cherry, 9 pear, 10 plum-cherry, 11 grape. (7 plum-cherry, 3 pear, 1 grape).
- Row 10. 1 pecan, 2 and 3 fig, 4 pecan, 5 and 6 fig, 7 pecan, 8 and 9 fig, 10 pecan, 11 grape. (4 pecan, 6 fig, 1 grape).
- Row 11. 1 to 5 grape, 6 pear, 7 to 11 grape. (10 grape, 1 pear).

Blackberries and dewberries in middle of rows 10 and 11 between fig and grape plants.

SUGGESTIONS FOR A MODEL ORCHARD

The best plan for planting an acre 210x210 in a Home Orchard for this section is as follows:

- 12 Paper Shell Pecan 60 x 60 Feet
- 33 Early to Late Peach 20 x 20 Feet
- 10 Early to Late Pear 60 x 60 Feet
- 22 Early to Late Plum 20 x 20 Feet
- 22 Early to Late Plum-Cherry 20 x 20 Feet
- 6 Fig 20 x 20
- 12 Grape Vines, Assorted 20 x 20
- 50 Blackberries, Assorted 3 feet in row
- 50 Dewberries, Assorted 3 feet in row

This can be used as a unit and doubled as many times as required. Apples are not as successful as other fruits, but farmers living near the River and other favorable portions of this State can grow apples successfully. The same may be said of strawberries.

The above proposed planting is furnished by The John S. Kerr Nursery Company of Sherman, Texas. We will be glad to furnish the farmers with detailed information as to preparation of the soil, selection of orchard site, best varieties to plant and proper pruning and planting methods.

Our 55 years experience shows that most of the successful farmers have a good orchard and garden.
